

How to Facebook Live

On your mobile device, open your facebook app. On the menu screen select the 3 line icon and you will see the option of the Joy El page listed. Each person's will look a little different with their personal account at top, and any other pages you admin.

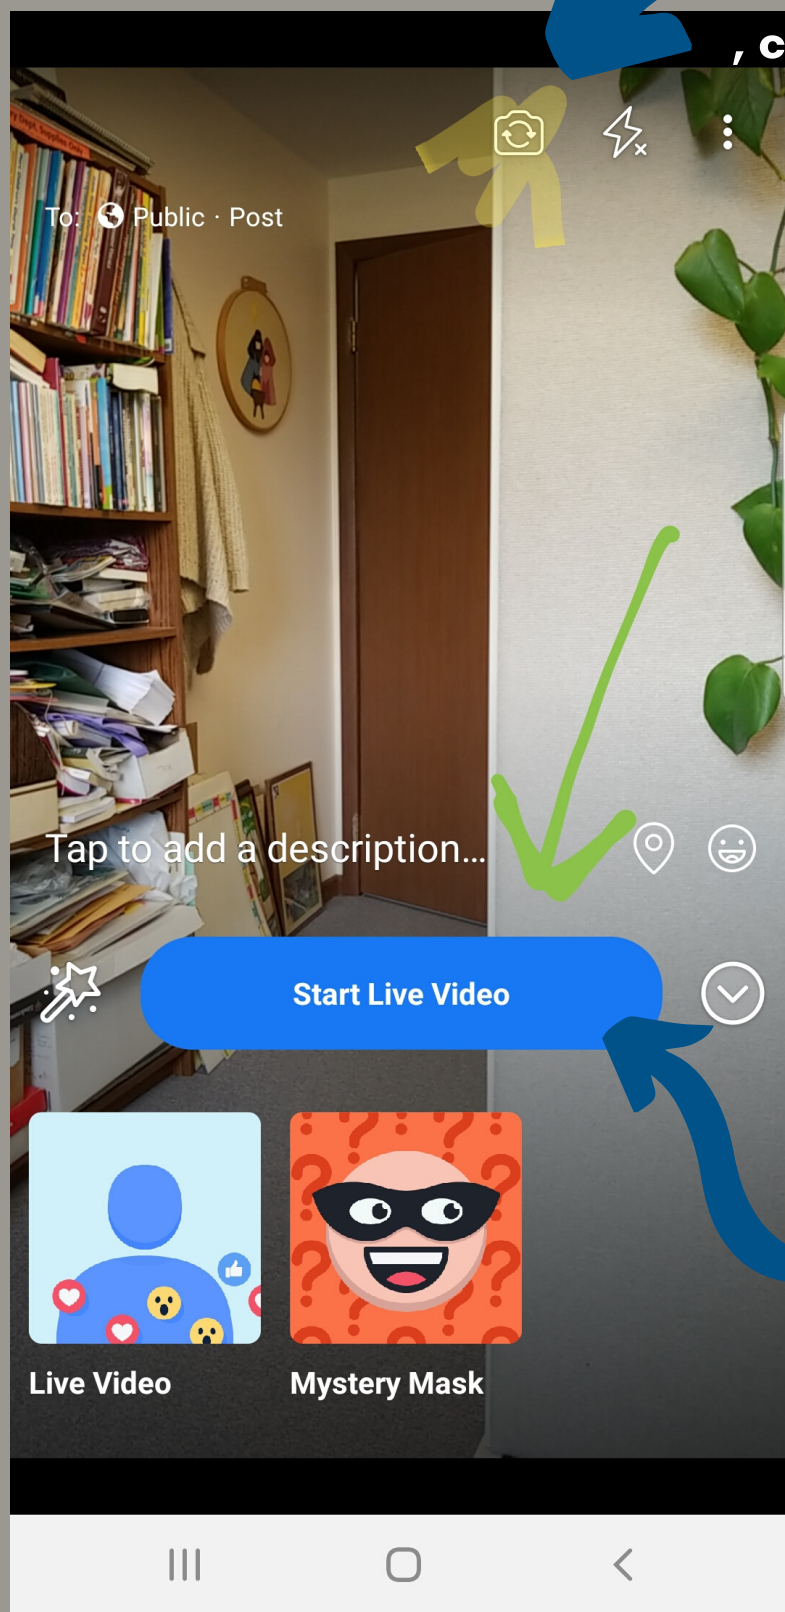

On the Joy El Page scroll down until you see the option for Create a post

**Create a post
will give you
these options,
you will want to
select Go Live.**

**Don't worry,
selecting this
won't take you
right to live
feed, there is
one more step!**

to do selfie mode
, click here

Once you select
Go Live, you will
get this screen.
You can adjust
your camera
view here until
you are ready,
making sure you
are capturing
what you want in
the shot. When
you are ready to
go live, press the
blue "start live
video" button
and You're LIVE!

make sure to confirm it gives you the "live" notification
once you start, it will show also how many viewers are
live, which helps to know it is working!
